Unmatched resale value - a safe investment

Warranty and support from worldwide dealer network

TOUGH

Built to withstand the toughest conditions

Unmatched track record – Corsairs have sailed around the globe

Over 3,000 Corsairs sailing worldwide

Advanced construction and premium equipment throughout

Power and precision - The Corsair 760 *Sport* delivers unmatched performance through class leading power to weight ratio.

Performance Edge

The Corsair 760 SPORT delivers supreme performance through the use of lightweight carbon technologies. However, she keeps the simple and effective sail plan, sail handling features, and folding mechanism that make the Corsair 760 so easy to manage. The carbon mast - standard on the Corsair 760 SPORT, reduces weight aloft and actually increases her safety factor. So you can turn the speed dial to 10, but remain completely in control and comfortable in sailing such a performance machine.

Race or Cruise

The new Corsair 760 SPORT is built to win races. With a power to weight ratio 42.9 sq.m/ T it's class leading on every continent. That performance is made possible through a series of enhancements to the 760 platform including:

- Carbon Fiber Mast & Boom
- Carbon Bowsprit
- Aramid Racing Laminate Sails
- Carbon Bowsprit and Spinnaker Hardware
- Lightweight Fitout
- Composite Daggerboard

ENHANCED design features provide a PREMIUM sailing experience

EASY TO FOLD
